Re: Operator Communications, Inc.'s Response to the Wireline Competition
Bureau's Request to Update Record in Docket Nos. 96-262, 94-1, 91-213
and 95-72 – Motion to Accept Filing as Timely Filed

Dear Ms. Dortch,

Operator Communications, Inc. ("OCI"), by its undersigned attorneys, hereby files its response to the Wireline Competition Bureau's request to update the record in Docket No. 95-72. A copy of the response is attached as **Attachment A**. The attached response was filed electronically in Docket Nos. 96-262, 94-1 and 91-213 on December 31, 2003. However, Docket Number 95-72 was not accepting electronic filings on that date (see **Attachment B**). Accordingly, per the advice of Ruth Dancey of the Office of the Secretary, OCI now submits a hard copy of the December 31, 2003 letter for filing in that docket and respectfully requests that the Commission accept it as timely filed on December 31, 2003.

Thank you for your consideration of this matter. If you have any questions or concerns, please do not hesitate to contact the undersigned at (703) 918-2300.

Re Operator Communications, Inc.'s Response to the Wireline Competition
Bureau's Request to Update Record in Docket Nos. 96-262, 94-1, 91-215
and 95-72

Dear Ms. Dortch:

Operator Communications, Inc. ("OCI"), by its undersigned attorneys, hereby responds to the Wireline Competition Bureau's request to update the record pertaining to petitions for reconsideration filed by various parties in response to the Federal Communications Commission's ("Commission") rules adopted in the 1997 *Access Charge Reform First Report and Order* ("1997 Order").

As an initial matter, OCI applauds the Commission's efforts to resolve any remaining issues arising from the 1997 Order in the above-referenced dockets. Fortunately, as a result of the Commission's June 23, 2003 decision clarifying that payphone lines are exempt from the PICC charge,¹ all issues raised by OCI in its April 22, 1998 request for clarification have now been addressed.² In the *Order on Reconsideration*, the Commission concluded that assessing the multi-line PICC on payphone lines does not relate to the costs of the lines on which

² See *Letter from Stephen H. Loberbaum, General Counsel, Operator Communications, Inc., to Richard A. Metzger, Chief, Common Carrier Bureau, Federal Communications Commission* (dated April 22, 1998).

it is assessed and, therefore, is not cost-based.³ As such, it fails to comply with the "new services test," which the FCC has said is required by Section 276 of the Telecommunications Act of 1996 (the "Act")⁴

Because the Commission has finally considered and determined that application of the PICC on payphone lines is inconsistent with the Act, OCI's ongoing challenge to the local exchange carriers' past and current practice of assessing the PICC on its payphone lines has finally been resolved in OCI's favor. Provided that its interpretation of the Commission's *Order on Reconsideration* is correct, OCI has no further interest in pursuing its request for clarification.

Thank you for your consideration of this matter. If you have any questions or concerns, please do not hesitate to contact the undersigned at (703) 918-2300.

Respectfully submitted,

Danny E. Adams
